

Campus Wide Expansion and Renovation Sewickley Academy | Sewickley, PA

Before joining CFB, Mr. Brennan lead a multi-disciplined team in the \$15 million dollar expansion and renovation to Sewickley Academy. On this unique project, Bill was responsible for the overall project delivery including verifying the building program, establishing budgets and scopes, developing designs, cost control, value engineering, contracting, construction management and project close-out.

To maintain good communications, Bill reported weekly to school administrators, trustees and capital campaign representatives. The project required a major reconfiguration of the existing campus and included a new child care center, new middle school, renovations to the lower school and senior school, a new library, renovations to the humanities building and athletic facilities. The project included environmental remediation and complex phasing, maintaining the school schedule, including summer school sessions and was completed in 1998.
